

## Upper and Lower Level Sleeping Surfaces in CCCA Conference Center Guest Facilities

**Please bear in mind that our bed configurations are constrained by the Fire Marshall. We arrange the beds in a manner that maximizes the evacuation space. All beds (single or bunked) have twin-sized mattresses.**

### **Disciples House**

Each room has 8 sleeping surfaces and its own bathroom (two toilet stalls/two sinks/one shower). Depending on the Fire Marshal's approved room configuration, it is typically set-up as four bunks or three bunks and two single beds.

**Total for building:  $5+5+5+5 = 20$  floor level sleeping surfaces in four Disciples House rooms**  
**Total for building:  $3+3+3+3 = 12$  upper level sleeping surfaces in four Disciples House rooms**

### **Stone House**

First floor Room 1: 2 single beds ===== shares the bathroom with Room 2  
First floor Room 2: 2 single beds

Second floor Room 3: 2 single beds ===== (Room 3 & 6 share the hallway bathroom)

Second floor Room 4 with private bathroom: 2 single beds

Second floor Room 5 with private bathroom: 4 single beds

Second floor Room 6 (shares the hallway bathroom with Room 3): 2 single beds

Second floor Room 7 with private bathroom: 2 single beds

**Total for building:  $2+2+2+2+4+2+2 = 16$  floor level sleeping surfaces in seven Stone House rooms**

### **New Alexander Campbell Hall** (each ADA & Family Room type bedroom has a sink in the bedroom area)

Four 2-person first floor ADA Rooms: 2 single beds in each room - total of 8 floor level surfaces. Each bathroom is ADA compliant and has a walk-in/roll-in shower stall.

Five 4-person second floor Family Rooms: 1 bunk bed in each room (so 1 floor level surface and 1 upper level surface), plus 2 single beds - total of 15 floor level and 5 upper level sleeping surfaces. Each bathroom has a tub & toilet.

Three 8-person first floor Dorm Rooms: 4 bunk beds in each room (so four floor level surfaces and four upper level surfaces) - total of 12 floor level and 12 upper level surfaces. There is not a sink in these bedrooms. There are Shower Rooms at each hall end.

Three 8-person second floor Dorm Rooms: 4 bunk beds in each room (so four floor level surfaces and four upper level surfaces) - total of 12 floor level and 12 upper level surfaces. There is not a sink in these bedrooms. There are Shower Rooms at each hall end.

**Total for building:  $8+15+12+12 = 47$  floor level sleeping surfaces within the new ACH rooms**  
**Total for building:  $5+12+12 = 29$  upper level sleeping surfaces within the new ACH rooms**

***The two Dorm Wing Group Shower Rooms on Floor 1 and on Floor 2 each have 3 toilet stalls and 3 shower stalls for a total of 12 toilets and 12 showers for up to 48 guests (24 on each floor). Each of the four has an ADA toilet and shower. There are no urinals in these four facilities so that the gender can be designated based on the Group's/Camp's mix of guests.***
